

Valtek GS

General Service Control Valve

FCD VLENTB0300A4 03/14

Valtek GS - “General Service Control Valve”

The Valtek GS product line is low cost, compact and light-weight. Yet, it is rugged and can be used safely and confidently in a wide range of general service applications plant-wide. Its modularity provides trim and material options to suit most service situations. Simplicity of design reduces maintenance and parts inventory costs.

Ideally suited for flow and pressure control of liquid and gas media in oil and gas, power, chemical and petrochemical processing and related industries, the Valtek GS package provides flow rates, control accuracy and reliability at levels comparable to special engineered service control valves, but at a significantly lower total cost.

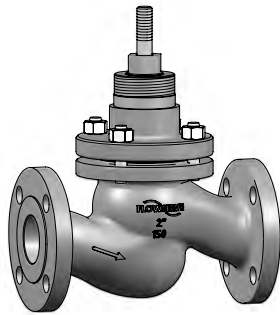

Specifications

Style	Globe, ASME and DIN
Sizes	½ to 6 inch / 15 to 150 mm
Pressure Classes	ASME 150 and 300 / PN 16 and PN 40
End Connection	Flanged
Body Materials	A216WCC / 1.0619 and A351CF8M / 1.4408
Face to Face	ISA 75.08.06 / EN 558-1 basic series 1
Bonnet	standard, extended, bellows seal
Packing	PTFE and Graphite spring loaded TA-Luft & ISO 15848-1

Trim material	316 stainless steel
Trim types	standard, pressure balanced
Plug & seat facing	standard, seat surface Alloy 6
Characteristic	= %, linear, quick open
Low noise and anti-cavitation	MultiStream 1-stage
Leakage rates	Class IV, V and VI (with optional soft seat)
Actuator	pneumatic diaphragm spring actuator
Standard positioner	Logix 420, direct mounted without tubing

Body Design - “Integral Flange”

Body Design	Type (Body) / Size	Body Material	Bonnet Design	Packing Design	Trim Design
Integral flange	PN 16 40 DN 15 20 25 32 40 50 65 80 100 125 150 Class 150 300 NPS 1/2 3/4 1 1 1/2 2 3 4 6	 1.0619 1.4408 A216 WCC A351 CF8M	Unbalanced Standard Bonnet Bellow Seal Bonnet Extended Bonnet V-Ring pressure balanced Standard Bonnet Bellow Seal Bonnet Extended Bonnet Piston-Ring pressure balanced Bellow Seal Bonnet Extended Bonnet <i>see page 4 - 6</i>	spring loaded Teflon TA-Luft Graphite TA-Luft <i>see page 6</i>	Contoured Plug Standard Partial Hard Facing Contour Hard Facing Soft Seated Quick Open Standard Soft Seated Anti-noise Equipment MultiStream 1-stage <i>see page 7</i>

Body Connecting Design - “Detail”

Body Design	Face to Face	End Connections		
Integral flange	Raised Face	EN 558-1:2012-03 Basic Range 1 according to EN 1092-1	Form B1 - raised-face Form F - recess Raised-face RF	Ra = 3,2 - 12,5 µm Ra = 3,2 - 6,3 µm 125 - 250 µin.
		ASME / ISA 75.08.01-2002 according to ASME B16.5

Parts List

Materials of Construction

Item		Part	Available Materials			
WW	EU					
1	1.1	Body	1.0619	A216 WCC	1.4408	A351 CF8M
58	1.2	Bonnet Gasket	Pure Graphite on Support Plate from 1.4401			
108	1.3	Stud Bolt	KG	A193	A2-70	A193
114	1.4	Hex Nut	KG	A194	A2-70	A194
20	2.1	Seat Ring	316 SS			
50	2.2	Contoured Plug Quick Open	316 SS			
8	2.3	Lock Bushing	316 SS			
6	2.4	Bellows seal Unit	316 SS			
55	2.5	Profile Ring	Pure Graphite			
113	2.6	Hex Nut ¹⁾	316 SS			
91	2.7	Seal Carrier ¹⁾	316 SS			
60	2.8	Profile Ring ¹⁾	Pure Graphite			
31	2.9	Cage ²⁾	A351 CF8M			
56	2.10	Cage Gasket ¹⁾	Pure Graphite			
65	2.12	Sealing Ring ¹⁾	PTFE-Rings			
59	2.15	Head Gasket	Pure Graphite			
66	2.21	Driving Band ¹⁾	PTFE			
30	2.26	Multi. Cylinder ¹⁾	1.4571			
133	2.28	Spring ¹⁾	1.4568			
40	3.1	Standard Bonnet Extension Bonnet Bellows Seal Bonnet	1.0460 or 1.0619	A105 or A216 WCC	1.4404 or 1.4408	316 L or A351 CF8M
83	3.1.1	Lower Stem Guide	316 SS (tenifer treated)			
93	3.2	Bottom Ring	316 SS			
88	3.3	Packing	PTFE-Rings Graphite-Rings			
80	3.4	Packing Follower	316 SS			
87	3.6	Upper Stem Guide	316 SS (tenifer treated)			
109	3.7	Belleville Spring	1.4310			
48	3.13	Gasket	Pure Graphite			
42	3.14	Plug Screw	A2			
7	3.15	Head	1.0460 or 1.0619	A105 or A216 WCC	1.4404 or 1.4408	316 L or A351 CF8M
110	3.16	Hex Nut	KG	A194	A2-70	A194
106	3.17	Stud Bolt	KG	A193	A2-70	A193

Flowserve Corporation has established industry leadership in the design and manufacture of its products. When properly selected, this Flowserve Corporation product is designed to perform its intended function safely during its useful life. However, the purchaser or user of Flowserve Corporation products should be aware that Flowserve Corporation products might be used in numerous applications under a wide variety of industrial service conditions. Although Flowserve Corporation can (and often does) provide general guidelines, it cannot provide specific data and warnings for all possible applications. The purchaser/user must therefore assume the ultimate responsibility for the proper sizing and selection, installation, operation, and maintenance of Flowserve Corporation products. The purchaser/user should read and understand the Installation Operation Maintenance (IOM) instructions included with the product, and train its employees and contractors in the safe use of Flowserve Corporation products in connection with the specific application.

While the information and specifications contained in this literature are believed to be accurate, they are supplied for informative purposes only and should not be considered certified or as a guarantee of satisfactory results by reliance thereon. Nothing contained herein is to be construed as a warranty or guarantee, express or implied, regarding any matter with respect to this product. Because Flowserve Corporation is continually improving and upgrading its product design, the specifications, dimensions and information contained herein are subject to change without notice. Should any question arise concerning these provisions, the purchaser/user should contact Flowserve Corporation at any one of its worldwide operations or offices.
